

WHO SEARO Webinar series on Genomic Surveillance of SARS-CoV-2

Session 1: March 29, 2022; 13.00-14.30 (IST)

Session 2: April 12, 2022; 13.00-14.30 (IST)

Session 1: Technologies, Evidence and Insights

Technologies for high throughput and fast turnaround

Dr. Sridhar Sivasubbu (CSIR-IGIB, New Delhi, India)

Federated and digital data driven pandemic preparedness

Dr. Anurag Agrawal (CSIR-IGIB, New Delhi, India)

Genomics driven pandemic policy decisions - experiences from Kerala.

Dr. Rajan Khobragade (Principal Secretary, Government of Kerala)

Session 2: Epidemiology, Informatics and Applications

Genetic Epidemiology - SARS-CoV-2

Dr. Divya Tej Sowpati (CSIR-CCMB, Hyderabad, India)

Beyond epidemiology - enabling clinical insights and better diagnostics, and the way forward. - Dr. Vinod Scaria (CSIR-IGIB, New Delhi, India)

Genetic Epidemiology in-a-box - enabling informatics for genomic surveillance.

Ms. Bani Jolly (CSIR-IGIB, New Delhi, India)
